Title	Web-Interactive Software Testing Method and Computer System Including an Integrated Test Case Authoring Tool		

**AMENDMENT AND RESPONSE UNDER 37 CFR § 1.111 AND RESPONSE TO
NOTICE OF NON-COMPLIANT AMENDMENT**

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

This replaces Applicants' previously submitted response to the May 18, 2006 Office Action and also serves to satisfy the formalities noted by the Examiner in a notice of non-compliance with 37 C.F.R. 1.121 mailed August 28, 2006. Please amend the above-identified patent application. Applicants assert that no new matter has been added by way of amendment.

IN THE SPECIFICATION

A replacement sheets for amending the abstract is enclosed. Also enclosed is a replacement sheet for the first page of the specification which corrects the form of the priority information objected to by the Examiner. No new matter is added by way of amendment.

Applicant has been able to view the published application US 2004/01074515 online and remarked that paragraph 0045, as published, has an extra indent bringing it out of alignment with the other paragraphs. Applicant respectfully requests that the USPTO printer correct this formatting error once the claims are allowed and a patent is prepared for issuance.
